Short introduction of key areas of research:

University Clinical Hospital No. 1 in Lublin (USK1) is a public hospital. The hospital comprises numerous clinical departments, specialist outpatient clinics, and diagnostic units, providing highly specialized healthcare services across a wide range of medical disciplines. USK1 is also a leading center for innovation, clinical research, and the training of future healthcare professionals. The Department of Metabolic Diseases and Immuno-Oncology and the Clinical Oncology Ward of USK1 provide specialized and comprehensive care for patients with cancer and metabolic diseases. The Psychiatry Center of USK1 comprises two departments: the Department of Psychiatry, Psychotherapy and Early Intervention, and the Department of Psychiatry and Psychiatric Rehabilitation. The staff of these two departments are presented in the photos. The Center also includes: Outpatient Psychiatry Clinic, Mental Health Clinic for Children and Adolescents, Community Mental Health Team.

Former participation in an FP European project?

☐ YES ☒ NO

Project title / Acronym:

Activities performed:

Expertise / Commitment offered

Description of your expertise:

The University Clinical Hospital No. 1 in Lublin is a leading academic medical center specializing in the diagnosis, treatment, and long-term care of patients with cancer, including breast and colorectal malignancies. The hospital provides comprehensive multidisciplinary oncology care, encompassing advanced diagnostics, systemic therapies, supportive treatment, rehabilitation, and follow-up care.

In addition to its oncological expertise, the hospital has extensive experience in psychiatric and psychological care for cancer patients. Specialized teams offer assessment and management of mental health conditions associated with cancer diagnosis and treatment, including anxiety, depression, stress-related disorders, and treatment-related psychological burden. This integrated approach supports patients throughout the cancer journey, improving quality of life, treatment adherence, and overall clinical outcomes.

The hospital combines clinical excellence with research and education, fostering collaboration between oncologists, psychiatrists, psychologists, immunologists, and other healthcare professionals to deliver patient-centered and evidence-based care.
