

Horizon Europe Partner Search Form

- ☒ I offer my expertise to participate
- ☐ I am planning to coordinate a proposal and I am looking for partners

Short summary of my partner search (3 lines max.) :

We are looking for a coordinator interested in our social science research approach to environmental mediation through a digital platform designed to:

- facilitate technological and scientific exchanges between project members.
- involve the general public and stakeholders excluded from the decision-making process
- move negotiations forward and encourage the engagement of stakeholders to implementing science-based solutions.

We are currently working on several projects (French and European) to reduce by-catches and protect biodiversity on the Atlantic North-east Ocean (Marine Beacon HORIZON-CL6-2023-BIODIV-01).

Topic

Topic we are interested in:

HORIZON-MISS-2025-03-OCEAN-02: A toolbox for public authorities to address marine plastics and litter from river-to-ocean

Project information

Tentative title:

Online participatory science to get stakeholders moving

Project idea:

A participatory science solution combining face-to-face actions and online debate.

We are working on new methods of mediation and responsible negotiation between stakeholders, from producers to the final consumer. These methods combine face-to-face events and online participation via platforms designed to facilitate stakeholder engagement. The objective is to report and debate on experiments with strong economic and environmental ambitions negotiated between stakeholders in defined maritime basins.

Potential contribution of my organisation to the project:

Development and supply of an open source platform
Coordination of research and actions in humanities and social sciences
Developing new methods of mediation and responsible negotiation
