TOPICS OF INTEREST

HORIZON-HLTH-2027-01-CARE-02: Personalised Approaches to Reduce Adverse Drug Reactions from Polypharmacy

HORIZON-HLTH-2027-01-STAYHLTH-01: Addressing Disabilities Through the Life Course to Support Independent Living and Inclusion

PARTNER INFORMATION

Description of the Legal Entity

MediClear is an Israeli AI-powered HealthTech startup (SME) developing a platform that simplifies complex medical documents into plain, accessible language for patients — with smart medication reminders and anonymous Real-World Evidence collection for pharma and health organizations. The company operates under Mantis Apps, a mobile and web development studio based in Tel Aviv, Israel. Israel is an Associated Country in Horizon Europe and is fully eligible for funding.

Description of the (Research) Team

The MediClear team consists of: Asi Meir (Founder and CEO) with 20 years in special education and autism inclusion, and 6 years in mobile app development; Noam Arbel (Data Scientist), BSc Engineering from the Technion graduated with honors; Prof. Shira Yalon Chaimovitz (Academic Advisor), Head of the Institute for Cognitive Accessibility at Ono Academic College. The team has a strong MOA partnership with Krembo Wings disability organization and is currently active in Closed Beta with 20 users on Google Play and TestFlight.

Expertise of the Team Leader

Asi Meir has 20 years of hands-on experience working with autism spectrum and cognitive disability populations in special education settings, including serving as Head of Innovation and Training Development in special education at a Tel Aviv municipal high school. He also has 6 years of experience building and shipping mobile and web applications through Mantis Apps studio, with expertise in React Native, Node.js, and AI agent pipelines. This unique combination of domain expertise and technical capability is the foundation of MediClear's approach to cognitive accessibility in healthcare.
