HoverPollination	Hoverflies as a new class of managed pollinators for better quantitative and qualitative yields of vegetable, fruit and seed crops	http://cordis.europa.eu/project/id/190119724	POLYFLY SL	Spain
PANNEXIN	Pannexin 1 – a novel target for pediatric orphan epilepsy	http://cordis.europa.eu/project/id/190121670	PANNTHERAPI	France
NOBULA	Nobula – Breaking the glass ceiling in Additive Manufacturing through laser-assisted glass 3D printing	http://cordis.europa.eu/project/id/190122644	NOBULA3D AB	Sweden
OPERAS	Opioid-free Pain relief for Enhanced Recovery After Spine fixation surgery	http://cordis.europa.eu/project/id/190122961	SENTRYX BV	Netherlands
Spiking Neural Processor	Always-On Intelligent Sensing with the Spiking Neural Processor	http://cordis.europa.eu/project/id/190123060	INNATERA NANOSYSTEMS BV	Netherlands
LignEasy	Worlds first sulfuric acid-free kraft lignin recovery system	http://cordis.europa.eu/project/id/190123865	LIGNEASY OY	Finland
i-THYMUS	The i-Thymus: wielding the potential of gene therapy, cell therapy and induced pluripotent stem cells for the regeneration of the thymus and the adaptive immune system	http://cordis.europa.eu/project/id/190124491	GENEWITY BV	Netherlands

EIC Accelerator Open 2023 - Call Results

Project Acronym	Project Title	CORDIS Link	Organisation	Country
KvasirAccelerator	The first utility-oriented, agnostic software platform for quantum-centric drug discovery	http://cordis.europa.eu/project/id/190124924	KVANTIFY APS	Denmark
iLoF	iLoF: AI-augmented photonics to identify and quantify disease biomarkers	http://cordis.europa.eu/project/id/190126414	ILOF - INTELLIGENT LAB ON FIBER, UNIPESSOAL LDA	Portugal
ADAPTE	A novel and accurate emotion recognition system for real-time and continuous patient monitoring in psychiatry	http://cordis.europa.eu/project/id/190129251	CEPHALGO	France
LILY	LILY: A Breakthrough Technology to Prevent Chemotherapy-Induced Hair Loss	http://cordis.europa.eu/project/id/190130710	LUMINATE MEDICAL LIMITED	Ireland
Molecular Culture	World's first diagnostic test that can detect all bacterial species in a single assay	http://cordis.europa.eu/project/id/190132711	INBIOME BV	Netherlands
PAREMA	PARTial REbreathing for Migraine with Aura	http://cordis.europa.eu/project/id/190133087	REHALER AS	Denmark
DiogenX	Beta-cell recovery to counter diabetes	http://cordis.europa.eu/project/id/190133766	DIOGENX SAS	France
FILBERT	An innovative implantable device and management platform to prevent chronic fluid congestion	http://cordis.europa.eu/project/id/190134274	PARAGATE MEDICAL LTD	Israel

EIC Accelerator Open 2023 - Call Results

Project Acronym	Project Title	CORDIS Link	Organisation	Country
Bac3Gel	New generation of substrates to harness the full power of microorganisms	http://cordis.europa.eu/project/id/190135075	BAC3GEL, LDA.	Portugal
Endoprotease 40 (E40)	First ever preventive treatment for celiac disease and gluten sensitivity	http://cordis.europa.eu/project/id/190138713	NEMYSIS LIMITED	Ireland
OCEANBATTERY	Unlocking the full potential of renewable energy with the Ocean Battery	http://cordis.europa.eu/project/id/190140124	CREATIVE ENERGY HOLDING BV	Netherlands
			OCEAN BATTERY PRODUCTION B.V	
			OCEAN GRAZER BV	
Twinspect	First fast and automated (<5 min) AI-based inspection to increase operational safety of large critical infrastructure, e.g., bridges, dams, and oil & gas platforms and refineries	http://cordis.europa.eu/project/id/190140847	TWINSITY GMBH	Germany
Elonroad	On-the-go charging system for heavy electric vehicles in ports and other closed loop applications	http://cordis.europa.eu/project/id/190141800	ELONROAD AB	Sweden
apyx	The first non-surgical repair for Pelvic Organ Prolapse	http://cordis.europa.eu/project/id/190143220	ESCALA MEDICAL LTD	Israel

EIC Accelerator Open 2023 - Call Results

Project Acronym	Project Title	CORDIS Link	Organisation	Country
Cellularity	The critical shift to single-cell formats in functional analyses of living cells	http://cordis.europa.eu/project/id/190144395	SAMPLIX ApS	Denmark
STAAART SmarT Abdominal Aortic AneuRysm Treatment	World's first device-based treatment for small abdominal aortic aneurysms based on revolutionary new treatment paradigm	http://cordis.europa.eu/project/id/190150530	ANGIOLUTIONS GMBH	Germany
KevadBio	Developing a novel Parkinson's disease drug using small molecule mimetics of Glial cell line-Derived Neurotrophic Factor (GDNF)	http://cordis.europa.eu/project/id/190151095	GENECODE AS	Estonia
HTQC-Diagnostics	High-Throughput Quantum Chip Diagnostics	http://cordis.europa.eu/project/id/190152156	ORANGE QUANTUM SYSTEMS OPERATIONAL BV	Netherlands
WomEC	Reshaping women's health through the understanding of gynecological fluids. WomEC: Antibody-based IVD test based on 5 novel protein biomarkers quantified in liquid biopsy	http://cordis.europa.eu/project/id/190153073	MIMARK DIAGNOSTICS SL	Spain
WHYLD	Worldwide HYdrological Large-scale Database	http://cordis.europa.eu/project/id/190153745	VORTEX.IO	France
FASTWIRE	Transformational crossing system to prevent amputation and treat complex chronic total occlusions in critical limb ischemia	http://cordis.europa.eu/project/id/190154620	VERSONO MEDICAL LIMITED	Ireland

EIC Accelerator Open 2023 - Call Results

Project Acronym	Project Title	CORDIS Link	Organisation	Country
Digitising Hospitals For Better Patient Care	First modular, interconnected, data- and AI-driven software platform for the digitisation of patient care in the healthcare industry	http://cordis.europa.eu/project/id/190154650	AVELIOS MEDICAL GMBH	Germany
MPRD	Innovative, minimally invasive Medical Prostatic Retraction Device for the treatment of Benign Prostatic Hyperplasia (BPH) Patients in the office settings.	http://cordis.europa.eu/project/id/190156124	BUTTERFLY MEDICAL LTD	Israel
Greenerwave	The first high-performance, low-cost flat panel antenna terminal at Ka band to unlock the full potential of satellite-based broadband communications	http://cordis.europa.eu/project/id/190156996	GREENERWAVE	France
PMed	Enabling patient specific medicines using 3D printing in hospitals and pharmacies	http://cordis.europa.eu/project/id/190157849	CURIFYLABS OY	Finland
TUMAGNOSTIC	A disruptive hypoxia activated prodrug for the treatment of resistant cancers: an AI-driven approach	http://cordis.europa.eu/project/id/190158311	CONVERT PHARMACEUTICALS	Belgium
ProSpace	BioProtect Balloon Implant System – Enabling Safe Prostate Radiation Treatment even at extreme dosage	http://cordis.europa.eu/project/id/190160766	BIOPROTECT LTD	Israel
