

DESCA MODEL CONSORTIUM AGREEMENT

DESCA (Development of a Simplified Consortium Agreement) is a comprehensive Model Consortium Agreement which offers a reliable frame of reference for project consortia. DESCA enjoys broad support within the EU framework programme community.

The DESCA Model Consortium Agreement is specifically designed for collaborative research projects as the "Research and Innovation Actions" and "Innovation Actions" of Horizon Europe.

The DESCA has been developed in 2006 for the 7th EU Framework Programme and now an update for Horizon 2020 and Horizon Europe has been launched.

The DESCA model for Horizon Europe takes into account the requirements resulting from the rules of the new EU Framework Program - Horizon Europe and the experience of the user community in working with DESCA 2020, as well as other legal developments.
